### MONTHLY SUMMARY

The Munro Global Growth Fund returned 3.8% in August. The Fund's long positions were the driver of returns, shorts and currency were largely flat, while there was a small drag from downside protection hedging. Global equity markets continued their strength driven by excellent corporate earnings and still low interest rates. Key positive contributors included E-Commerce company, HelloFresh, Innovative Health winner, Danaher and Digital Enterprise business, ServiceNow. The key detractor for the month was Mastercard, as its cross-border business is likely to remain pressured by the Delta variant's impact on travel. We remain positive about equity markets, with excellent structural growth tailwinds in place for our companies, underpinned by a low interest rate backdrop and long term structural deflationary forces.
